## TILLVÄXT GENOM INNOVATION

CT Food är ett väletablerat familjeföretag specialiserat på import, export och distribution av orientaliska produkter över de nordiska länderna. Med fokus på betydelsen av produktkvalitet, bred mångfald, ett mycket sofistikerat logistiksystem, kundnöjdhet och ett team av engagerade och erfarna medarbetare, och genom att konsekvent uppdatera sin verksamhet under de senaste 30 åren, har CT Food snabbt blivit en pålitlig verksamhet partner och distributör av orientalisk mat och icke-livsmedelsprodukter i norra Europa. Tack vare innovation och en bra meritlista har CT-Food nu blivit det framträdande valet för ett ökande antal kunder och leverantörer.

CT Food etablerades från början som en liten asiatisk butik i Malmö, Sverige år 1987, med syftet att känna sig hemma och även servera asiatiska medborgare i Sverige med asiatiska ingredienser.

Med rötter i både Kina och Vietnam uppskattar och förstår vi de stora utmaningar och möjligheter som har uppstått i en modern mångfaldig värld. Att kombinera två generationer med starka kärnvärden, unika kunskaper och erfarenheter, ett brett kontaktnät i Sydostasien, samt en tydlig vision och hängivenhet att dela glädjen för asiatisk mat och göra den mer tillgänglig i då främst Sverige och Danmark.

Förutom att vi värdesätter och hedrar vårt arv och vår kultur, är CT Food stolta officiella representanter för traditionella toppmärken av autentiska smaker från alla hörn av Sydostasien. När vi genom åren har vuxit och expanderat till Stockholm för att vara närmare våra kunder, har vi varit snabba att omfamna och svara på de ständigt föränderliga marknadstrenderna och kraven i denna globaliserade värld och ett mångkulturellt Sverige, och erbjuder därmed ett brett utbud av exotiska och smakrika produkter till konsumenter, restauranger, asiatiska specialbutiker, grossistföretag och vanliga stormarknader och livsmedelskedjor i Skandinavien. Vi skräddarsyr lämpliga sortiment för att passa din verksamhet och behov! Efter att ha varit närvärande och verkat i branschen i över 3 decennier är vi fullt utrustade för vad som krävs och förväntas möta dagens efterfrågan!

Inköpsteamet på CT Food handplockar noggrant och köper direkt från de välrenommerade källorna och varumärkena som är vanligast i ursprungsländerna, såsom Thailand, Hong Kong, Kina, Taiwan, Singapore, Vietnam och Korea. De grundläggande kriterierna vid valet av tillverkare är att de är certifierade enligt globala standarder för att säkerställa att högsta kvalitet och livsmedelsäkerhet upprätthålls genom hela leveranskedjan hela vägen till hyllorna och våra kunders bord.

När vi väljer ut nya bäst lämpade produkter och varumärken för vår marknad håller vi oss på toppen av marknadsutvecklingen genom att arbeta nära våra partners från de lokala marknaderna i Asien, regelbundet besöka leverantörer och internationella matmässor och naturligtvis diskutera och lyssna på våra kunders önskemål.

## LOGISTIK

CT Foods omfattande logistiksystem bygger i första hand på noggrann och effektiv planering och schemaläggning av transportvägarna varje vecka för att ha så liten påverkan på miljön som möjligt, och även för att säkerställa att alla våra kunders beställningar kommer fram i färskt skick och i rätt tid. Vi har både kyl- och frysbilas då det är av avgörande betydelse att säkerställa att alla produkter håller rätt temperatur från våra lager till leverans.

## LOGISTICS

CT Food's comprehensive logistics system is primarily based on careful and effective planning and scheduling of the transport routes each week to have as little impact on the environment as possible, and also to ensure that all our customers orders will arrive in a fresh condition and timely manner. We have both refrigerated and frozen trucks as it is of crucial importance to ensure that all products keep the right temperatures from our warehouses to the point of delivery.

## MILJÖ OCH KVALITET

Kvalitet är av yttersta vikt för oss på CT Food. Vi arbetar enligt Jordbruksverkets och Livsmedelsverkets regler och föreskrifter. Våra leverantörer innehåller alla certifieringar som krävs för att hålla sig förenlig med dessa, vilket säkerställer att produkterna är i överläget skick.

CT Food bidrar till hållbarhet genom vårt partnerskap med FTI (ett rikstäckande återvinningssystem för förpackningar). Sedan 1994 ansvarar alla tillverkare och importörer i Sverige för att återvinna sina förpackningar. Det är där FTI kommer in och hjälper företag att ta sitt ansvar som producenter. CT Food är stolta över att vara en del av detta arrangemang.

Vi arbetar ständigt med förbättringar och ser till att våra tjänster och produkter uppfyller nuvarande krav. Genom att planera våra transporter noggrant vill vi att våra leveranser ska påverka miljön så lite som möjligt.

## ENVIRONMENT AND QUALITY

Quality is of the utmost importance to us at CT Food. We operate according to the Board of Agriculture and the National Food Administration's rules and regulations. Our suppliers hold all the certifications required to stay compliant, ensuring that the products are in superior condition.

CT Food contributes to sustainability through our partnership with FTI (a nationwide recycling system for packaging). Since 1994, all manufacturers and importers in Sweden are responsible for recycling their packages. That's where FTI comes in – helping companies take their responsibility as producers. CT Food is proud to be part of this arrangement.

We are continually working towards improvements and ensuring our services and products meet the current requirements. Planning our transports carefully, we want our deliveries to have as little impact on the environment as possible.

## Statement on AJI-NO-MOTO® MSG Quality

AJINOMOTO CO., INC. is the MSG world leading producer since the launch of AJI-NO-MOTO® MSG in 1909.

After a century of sales activity, the AJINOMOTO Group has ensured high recognition of AJI-NO-MOTO® MSG.

AJI-NO-MOTO® MSG is produced by environmentally friendly fermentation technology and does not contain genetically modified ingredients, guaranteeing that your products will not be labelled as "containing genetically modified organisms".

AJINOMOTO FOODS EUROPE SAS guarantees very high purity and quality standards. AJINOMOTO FOODS EUROPE SAS production facility is built and managed strictly following HACCP principles guaranteeing the safety of the AJI-NO-MOTO® MSG production. AJI-NO-MOTO® MSG does not contain allergenic materials and therefore does not require any extra allergy-related labelling.

AJI-NO-MOTO® MSG is produced within the EU, providing flexibility, avoiding possible import-export restrictions and guaranteeing local-level services and support.

AJINOMOTO FOODS EUROPE SAS guarantees full compliance with all European regulatory requirements on MSG use in food and feed, including packaging and labelling requirements.

AJINOMOTO FOODS EUROPE SAS now offers MSG in practical smaller packages, improving the sanitary compliance of your establishment. The EU Regulation (EC) No 852/2004 on the hygiene of foodstuffs requires that non-used food (and garbage) are to be removed, from rooms where food is present, as quickly as possible. This requirement is especially burdensome when using large packaging.

In order to assist you in complying with this European Regulation, AJINOMOTO FOODS EUROPE SAS is now providing you with 50 lbs, 10 kg and 1 kg MSG bags. Particularly, the 1 kg packaging has already encountered a huge success amongst renowned Chefs working in Hong-Kong and continental China as not only they provide better hygienic conditions and user friendly sealing but also greater flexibility in purchasing quantity.
